Handrail

## Channel Wrap Handrail elevates an overlooked rail.

Spinneybeck Leather Handrails elevate an overlooked rail to a tactile, distinctive feature. This elegant and durable solution for stairs or elevator and door hardware enhances a space with a handcrafted, bespoke architectural element. Originating in Europe, the craft of wrapping handrails in leather is truly an art form. The leather is cut, shaved, and wrapped by hand adhering the leather to the handrail substrate. To create a clean look, a brushed aluminum channel insert is fixed at the underside of the handrail. Customizable options include leather type.
