

Lucca

Upholstery Leather

spinneybeck

**Lucca is a supple,
velvety suede.**

Lucca's suede surface and luxurious suppleness of hand are achieved with an additional fat liquoring process during the retanning phase of production. And unlike our other suede leathers, Lucca is heavier in weight and when combined with a specialized milling process, features an elegant pebble grain surface which is protected with a soil resistant treatment. The dyes used in Lucca provide excellent light fastness properties for a naked leather.

|----------------------------------|---|
| Product | Lucca (LC) |
| Content | European cowhide |
| Origin | Italy |
| Hide Size | 55–60 sq ft (5.1–5.6 sq m) |
| Thickness | 1.5–1.6 mm |
| Weight | 3.75–4.0 oz / sq ft (1144–1221 g / sq m) |
| Grain | Full |
| Grain Texture | Pebble sueded |
| Tannage | Chrome |
| Dye | Aniline |
| Finish | Naked, soil resistant |
| Primary Uses | Upholstery, handrails, wall panels, architectural applications |
| Industry | Contract, hospitality, marine, residential |
| Maintenance | Smooth sueded leather can be maintained with reasonable care as liquids will bead allowing spillage to be blotted up immediately. Dry brush occasionally and general soiling may be removed with a suede cleaning block. Leather cleaners such as saddle soap or household cleaners that may contain harsh chemicals, alcohol or ink removers should never be used. |
| Custom | Custom colors not available |
| Special Services | Flame treatment and perforated available with an upcharge |
| Variation | Color variation of naked leathers may be more pronounced beyond the normal commercial range. A Cutting for Approval (CFA) is required for all orders. |
| Colorfastness to Light | Class 2–3 |
| Colorfastness to Crocking | Class 2–3 (dry) |
| Flammability | CAL 117: Pass CAL 133: Successfully used in CAL 133 applications with Firegard F187 fire backer material or equivalent (flame treated) Cigarette Ignition Resistance NFPA 260: Class 1 |
| Durability + Strength | Abrasion ASTM D 7255: n/a Breaking Force ASTM D 2208: 260 lb Elongation ASTM D 2211: 30–50% at 50 lb Flex ASTM D 2097: n/a Tearing Strength ASTM D 4705: 40 lb |
